# About Company

## SS PLASTIC

"SS PLASTIC" your trusted partner in Fiberglass Reinforced Plastic (FRP) manufacturing and custom fabrication. With over two decades of industrial experience, we specialize in delivering high performance, corrosion-resistant FRP products tailored for chemical processing, pharmaceuticals, water treatment, and infrastructure sectors.

The Industries Served By "SS PLASTIC" Chemical & Petrochemical Plants, Wastewater & Effluent Treatment Plants (ETP/STP) Pharmaceutical & Food Processing Units Pulp & Paper, Textiles, and Power Plants

We prioritize eco-conscious manufacturing by minimizing waste and maximizing the lifespan of every product. Our FRP solutions support sustainable infrastructure by replacing rust-prone metals with durable alternatives.

## Product Range

- ⊕ FRP Piping & Fittings
- ⊕ FRP Tanks/Vessels
- ⊕ PP&HDPE Heavy Duty Tank (fabricated)
- ⊕ FRP Agitator for Reactors.
- ⊕ FRP Absorption Column, Drying Towers.
- ⊕ FRP/ThermoPlastic Lined FRP Pollution Control Equipments.
- ⊕ Scrubber
- ⊕ Mist Separators.
- ⊕ Blowers.
- ⊕ FRP hoods
- ⊕ FRP Pallets.
- ⊕ FRP Grating,
- ⊕ FRP Pressure Tubes & Vessels.
- ⊕ Under Maintenance Job & Revamping Jobs

## WE HAVE BEEN WORKED WITH FOLLOWING LINER MATERIAL.

U-PVC, C-PVC, pvc, PP, PVDF, ECTFE, FEP, PFA.

## Applications

Our tanks are ideal for:

- ⊕ Water Storage
- ⊕ Petroleum Products
- ⊕ Industrial Chemicals
- ⊕ Corrosive Fluids

# FRP Storage Tanks

Versatile. Durable. Corrosion-Resistant

SS Plastic, we design and manufacture high-performance FRP (Fiber-Reinforced Plastic) storage tanks tailored to a wide range of industrial applications. Built with thermosetting resins and fiberglass reinforcement, our tanks offer unmatched strength, flexibility, and chemical resistance.

## Key Features:

**Corrosion-Resistant:** Compatible with a wide variety of chemicals and fuels **Flexible Design:** Suitable for both underground (backfilled) and aboveground (horizontal/vertical) installations

**Custom Solutions:** Inner linings and resin systems tailored to specific chemical needs **Robust Construction:** Built for long-term performance and durability.

## Pipes & Fitting

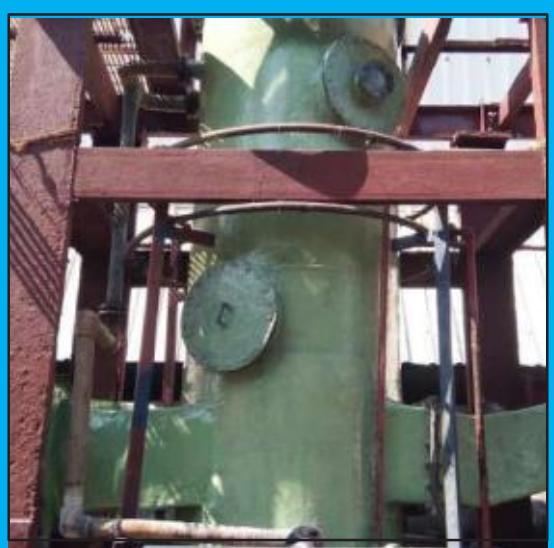

## Pollution Control Equipments

# Ladder Grating Railing Hoods & Guards

## Lining Service
